

König Graining Pen

205 000

Intended Use

- For the translucent replication of fine wood grains/textures.
- Recommended for indoor use.

Characteristics

- Dries rapidly.
- Wipe-resistant and waterproof.
- Good adhesion to paint and wood surfaces that are free from dust and grease.
- Can be varnished with all König clear lacquers.
- Seamless lacquer application, ideal for precise touch-up work (fine strokes and dots).
- Pen is non-refillable.
- Solvent-based product.

Application Notes

Remove cap – pen is immediately ready to use. Depending on requirements, either dab on colour glaze with the pen tip lightly – without applying any pressure – or apply with fine, short lines. If the glaze application is too heavy and hence too dark, it can be reduced or rather adjusted with Wire Wool or with the Sanding and Polishing Cloth when dried. To prevent 'strongly soaking', untreated or raw wood (e.g. sanded through areas) from turning too dark, apply the colour glaze to a cloth and gently dab with the soaked area of the cloth. When working on filled areas (e.g. with König fillers), apply a barrier coat to the substrate first using Special Repair Lacquer PLUS. For a final sealing, again spray over with Special Repair Lacquer PLUS. To avoid contaminations, clean brush tip with a cloth or a rag from time to time. Prevent brush tip from coming into contact with lacquers, e.g. when retouching not completely dried lacquers. The tip may become sticky or rather resinous. Close pen well after use – otherwise risk of drying up!

Physical Properties and Shelf Life

Dust-dry:	after 1-2 minutes
Touch-proof:	after approx. 5 minutes (dependent on room temperature and coat thickness)
Water resistance:	good
Adhesion:	very good, except to PE/PP, limited adhesion to UV-hardened lacquer systems and powder lacquers without any problems – as far as known
Overcoatable:	without any problems – as far as known
Shelf life:	minimum 1 year (stored at room temperature, in unopened original container)

Safety Precautions

Please refer to label and material safety data sheet.

Disposal

- Do not allow product to enter drains or watercourses.
- Non-contaminated packaging may be recycled.
- Leftover material to be disposed of according to the European Waste Code 080111 – *waste paint and varnish containing organic solvents or other dangerous substances.*

Packaging

On request
